

Thesis Template

Title Thermal maturity Latest Ordovician (Hirnantian) miospores from Northern Gondwana regions, and their evolutionary significance

Name of the **supervisor**, Amalia Spina

Name(s) of a **potential co-supervisor(s)**

Prospective **assistance** in the supervision: Laboratory activity

Brief **description** of the planned research and references if needed, including the

1) **objectives**

Understanding of the evolution of the early vegetation cover in northern Gondwana during a time of climatic change and biospheric perturbations.

2) the **study area**

Southern Iran

3) the **research methods** foreseen

Laboratory activity and microscope training
