

Fondo Ricerca di Base 2018 – Graduatoria Finale

Proponente	Titolo	Punteggio
Grignani Gianluca	Black holes, neutron stars and gravitational waves	15
Paciaroni Alessandro	Cellulose Nanofiber hydrogels for Protein Therapeutics (CONCEPT). Structure and thermodynamics of model proteins loaded in cellulose nano-fiber hydrogels.	15
Spina Amalia	The Palynomorph Darkness Index (PDI) and the evolution of the macromolecular structure of sporopollenin during the thermal degradation: correlation and calibration with classical thermal maturity indices.	15
Scopetta Sergio	Deeply Virtual Compton Scattering off 4He	14,6
Melelli Laura	HUSH UNDERGROUND - Hiking in Urban Scientific Heritage. Augmented Reality for the hidden cavities of Perugia (Umbria, central Italy)	14,25
Zucchini Azzurra	COLDER – Carbonatites from OL Doinyo Lengai to VultuRe: origin and evolution.	14,25
Ercoli Maurizio	Ambient seismic noise acquisition for 3D reconstruction of the Norcia basin (Central Italy) (SEISMONOR) - Extended title: Seismic noise vibrations analysis aiming to reconstruct the complex subsurface geology on the area struck by the 6.5 Mw earthquake beneath Norcia continental basin (Central Apennines, Italy).	14
Valigi Daniela	Hydrogeological and geochemical responses to the 2016 Central Italy seismic sequence	13,25
